

Equipment financing solutions for the healthcare industry

Equipment acquisition made easier for busy healthcare providers

In today's increasingly complicated healthcare landscape, finding affordable and reliable financing options that enable you to acquire necessary medical and technology assets can be a difficult balancing act. You need a partner with the experience and resources to provide solutions that match your equipment requirements and financial objectives.

Macquarie is a global leader in structuring customized financing and asset management solutions for hospitals, medical centers, and other types of healthcare facilities. Our innovative programs enable you to gain a competitive edge to best serve your patients without compromising your financial flexibility.

Benefits

- Protect against obsolescence with upgrades and the ability to use the latest technology
- Preserve credit lines and conserve working capital with 100 percent financing and lower upfront cost
- Add on and match equipment capacity to ever-changing business requirements
- Avoid higher late-life maintenance costs by upgrading to new equipment earlier

One source financing

- Finance all of your needs from a single provider, regardless of equipment type or manufacturer
- Bundle hardware, software, shipping, installation, maintenance, and associated soft costs into one lease
- Manage assets through a single source with our convenient and secure online tracking system

Flexible payment options

- Install equipment now and defer payments when reimbursement dollars are available
- Overcome capital expenditure budget constraints by delaying rental obligations until your next fiscal year
- Begin with lower payments and increase annually as performance and usage increase

Lifecycle asset management

- Maximize your investment with end-to-end solutions from acquisition through disposal
- Experience a smooth transition from one platform to another with coordinated installation of new and removal of old equipment

Equipment financed

Medical

- Imaging
