

Environmental Policy

Macquarie Technology Services provides IT lifecycle solutions to corporate and government customers. MTS Services include:

- * Pre-deployment: Asset tagging & tracking, Imaging, Component upgrade
- * Deployment: Installation, Data migration, Network connection
- * Logistics: Handling, Packaging, Transport, Storage
- * End of life: Data wiping, HDD destruction, Recycle, Remarket, Redeploy
- * Additional Services: Asset audit, Electrical safety test & tag, Post Installation Support
- * Trading and other activities

Macquarie Technology Services conducts business in a manner that conserves the environment. This commitment is reflected through programs focusing on industry standards, best practices, contractual agreements and corporate initiatives.

To support this commitment to the environment, Macquarie Technology Services:

- * Has implemented and maintains a documented Environmental Management System compliant to AS/NZS ISO14001:2004.
- * Identifies and complies with all relevant Legislative and other requirements.
- * Continually improves the Environmental Management System through periodic reviews against annually defined environmental objectives.
- * Communicates the Environmental Policy to all employees, contractors and the public.
- * Reclaims used materials and ensure reuse and/or recycling occurs wherever possible.
- * Develops energy and resource saving initiatives.
- * Considers environmental impact in decision-making.
- * Promotes environmental awareness with customers and suppliers.
- * Commits to developing carbon neutral Services to allow customers to procure environmentally sustainable IT Services

Our mission is to be recognised by all employees, customers, communities and other stakeholders as a responsible business committed to continual improvement and the prevention of environmental impact in all our business activities.
