

Operational Briefing

Presentation to Investors
and Analysts

9 February 2021

Disclaimer

The material in this presentation has been prepared by Macquarie Group Limited ABN 94 122 169 279 (MGL) and is general background information about Macquarie's (MGL and its subsidiaries) activities current as at the date of this presentation. This information is given in summary form and does not purport to be complete. The material contained in this presentation may include information derived from publicly available sources that have not been independently verified. Information in this presentation should not be considered as advice or a recommendation to investors or potential investors in relation to holding, purchasing or selling securities or other financial products or instruments and does not take into account your particular investment objectives, financial situation or needs. Before acting on any information you should consider the appropriateness of the information having regard to these matters, any relevant offer document and in particular, you should seek independent financial advice. No representation or warranty is made as to the accuracy, completeness or reliability of the information. All securities and financial product or instrument transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments and, in international transactions, currency risk.

This presentation may contain forward looking statements – that is, statements related to future, not past, events or other matters – including, without limitation, statements regarding our intent, belief or current expectations with respect to Macquarie's businesses and operations, market conditions, results of operation and financial condition, capital adequacy, provisions for impairments and risk management practices. Readers are cautioned not to place undue reliance on these forward looking statements. Macquarie does not undertake any obligation to publicly release the result of any revisions to these forward looking statements or to otherwise update any forward looking statements, whether as a result of new information, future events or otherwise, after the date of this presentation. Actual results may vary in a materially positive or negative manner. Forward looking statements and hypothetical examples are subject to uncertainty and contingencies outside Macquarie's control. Past performance is not a reliable indication of future performance.

Unless otherwise specified all information is as at 31 December 2020.

Numbers are subject to rounding and may not fully reconcile.

About Macquarie

Annuity-style activities NET PROFIT CONTRIBUTION

~70%

Markets-facing activities NET PROFIT CONTRIBUTION

~30%

Macquarie Asset Management (MAM)

- Top 50¹ global specialist asset manager with \$A550.9b² of assets under management, diversified across regions, products, asset classes and investor types
- Provides investment solutions to clients across a range of capabilities, including infrastructure & renewables, real estate, agriculture, transportation finance, private credit, equities, fixed income and multi-asset solutions

Banking and Financial Services (BFS)

- Macquarie's retail banking and financial services business with total BFS deposits³ of \$A76.3b², loan and lease portfolio⁴ of \$A84.5b² and funds on platform⁵ of \$A97.3b²
- Provides a diverse range of personal banking, wealth management, business banking and vehicle finance⁶ products and services to retail clients, advisers, brokers and business clients

Commodities and Global Markets (CGM)

Diverse platform covering more than 30 market segments, with more than 200 products

- Delivers a range of tailored specialised asset finance solutions across a variety of industries and asset classes
- Commodity market lending and financing provides clients with loans and working capital finance across a range of commodity sectors including metals, energy and agriculture
- Integrated, end-to-end offering across global markets including equities, fixed income, foreign exchange, commodities and technology, media and telecoms
- Provides clients with risk and capital solutions across physical and financial markets

Macquarie Capital (MacCap)

Global capability in:

- Advisory and capital raising services, investing alongside partners and clients across the capital structure, providing clients with specialist expertise, advice and flexible capital solutions across a range of sectors
- Development and construction of infrastructure and energy projects and, in relation to renewable energy projects, the supply of green energy solutions to corporate clients
- Equities brokerage, providing clients with access to equity research, sales, execution capabilities and corporate access

Risk Management Group

An independent and centralised function responsible for objective review and challenge, oversight, monitoring and reporting in relation to Macquarie's material risks.

Legal and Governance

Provides a full range of legal and corporate governance services, including strategic legal and governance advice and risk assessment.

Financial Management Group

Provides financial, tax, treasury, funding and capital, corporate affairs and advisory services to all areas of Macquarie.

Corporate Operations Group

Provides technology, market operations, HR, workplace, strategy, operational risk management, data and transformation, resilience and global security services plus the Macquarie Group Foundation.

Macquarie's response to COVID-19

Employees

- Gradual return to office commenced in 82% of locations where safe to do so and in numbers that allow for social distancing
- Systems and processes have been resilient to ongoing remote working, reflecting long-term investment in technology and flexible working culture
- Investment in leadership capability, technology and the workplace continues as we respond to the evolving culture of work and promote greater flexibility

We have been agile in adapting our approach to a rapidly-changing environment in each location, capturing regular feedback from staff to address immediate needs and test and learn for longer-term shifts and opportunities.

Clients

- Enhanced client support and lending relief maintained since Mar. Most clients have now resumed normal payments
- Working closely with clients in the most challenged sectors on their long-term resilience and response to disruption
- Actively supporting clients in all regions in raising essential finance and capital

We recognise the structural shift COVID-19 has prompted for some clients, giving rise to near and longer-term changes in our approach to meeting their needs and ensuring their ongoing access to opportunities.

Portfolio Companies

- Ongoing work with MIRA and Macquarie Capital portfolio companies including projects under construction to ensure business continuity, financial resilience and employee wellbeing
- Maintained essential community services and connected best practice across assets, industries and regions
- Capacity upgrades to MIRA-managed digital infrastructure assets have left them able to handle significant activity increases resulting from shift to virtual engagement

Our longstanding approach to crisis planning has underpinned the ability of assets to withstand economic impacts and maintain and extend essential services, while also identifying new ways to respond to disruption on behalf of the community.

Community

- \$A20m allocation to Macquarie Group Foundation to help combat COVID-19. To date, \$A17.7m has been allocated to 34 organisations around the world:
 - \$A7.2m to 24 non-profits focused on direct relief efforts providing critical food, medical support, humanitarian relief kits and information to vulnerable groups affected by COVID-19
 - \$A8.5m to eight organisations supporting workers and businesses in restarting economic activity
 - \$A2.0m to public health and clinical research

We balanced our support for urgent direct relief needs, research and investment while also being flexible in our support for existing community partners that have had to quickly respond to change and the increased demand on their services.

3Q21

Overview

- Improved trading conditions in 3Q21 across the Group
- Macquarie's annuity-style businesses' (MAM and BFS) combined 3Q21 net profit contribution¹ up on the prior corresponding period (pcp) (3Q20)
 - FY21 year to date (YTD)² net profit contribution broadly in line with FY20 YTD² mainly due to: base and performance fees in MAM broadly in line; partially offset by BFS margin pressure, increased credit impairment charges, and higher costs to support clients as a result of COVID-19, albeit with continued volume growth
- Macquarie's markets-facing businesses' (CGM and MacCap) combined 3Q21 net profit contribution¹ which included the partial sale of Macquarie's interest in Nuix significantly up on pcp
 - FY21 YTD² net profit contribution broadly in line with FY20 YTD² primarily due to: stronger activity across the majority of businesses in CGM, inclusive of income recognition timing associated with transportation and storage agreements; partially offset by lower fee revenue and principal income in Macquarie Capital, albeit with a reduction in expenses

1. Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax. 2. YTD refers to the nine months to 31 Dec for the relevant year.

3Q21

Overview

Annuity-style businesses

Macquarie Asset Management

~47%

1H21 contribution¹

- AUM of \$A550.9b at Dec 20, down 1% on Sep 20
- MIM: \$A360.6b in AUM, up 3% on Sep 20, primarily driven by market movements and positive net flows, partially offset by foreign exchange
- MIRA: \$A137.1b in EUM², down 2% on Sep 20, driven by equity returned and foreign exchange, partially offset by new equity raised
 - 3Q21: \$A6.6b in new equity raised, \$A3.4b of equity invested and \$A6.6b of asset divestments. \$A25.7b of equity to deploy at Dec 20
- MIM entered into an agreement to acquire Waddell & Reed Financial, Inc. On closing, MAM will retain Waddell & Reed's asset management business and sell its wealth management platform to LPL Financial (LPL), resulting in an increase of ~\$US68b in AUM
- Macquarie Infrastructure Partners (MIP) II reached financial closure on the divestment of its final asset, Elizabeth River Tunnels
- Macquarie Infrastructure Corporation (MIC) sold International-Matex Tank Terminals resulting in the MIC board of directors authorising a special dividend of \$US11.00 per share
- Formal integration of GLL successfully completed in the quarter
- Macquarie AirFinance (50% owned and managed by MQG) – continues to face headwinds and to work with airlines to provide relief in response to their revenue challenges

Banking and Financial Services

~14%

1H21 contribution¹

- Total BFS deposits³ of \$A76.3b at Dec 20, up 3% on Sep 20
- Home loan portfolio of \$A62.6b at Dec 20, up 9% on Sep 20
- Funds on platform⁴ of \$A97.3b at Dec 20, up 9% on Sep 20
- Business banking loan portfolio of \$A9.4b at Dec 20, up 5% on Sep 20
- Vehicle finance portfolio⁵ of \$A12.0b at Dec 20, down 3% on Sep 20
- 1.3% of BFS clients, by loan balance, accessing assistance at 31 Dec 20

1. Based on 1H21 net profit contribution from operating groups as reported on 6 Nov 20. Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax. 2. MIRA's total EUM includes market capitalisation at measurement date for listed funds, the sum of original committed capital less capital subsequently returned for unlisted funds and mandates as well as invested capital for managed businesses. 3. BFS deposits exclude corporate/wholesale deposits. 4. Funds on platform include Macquarie Wrap and Vision. 5. Includes general plant and equipment.

3Q21

Overview

Markets-facing businesses

Commodities and Global Markets

~47%

1H21 contribution¹

- Strong client hedging and trading activity across the commodities platform driven by market dislocations and increased volatility, particularly from the oil, gas, and precious metals markets businesses
- Continued client activity in foreign exchange, credit and interest rates
- Increased client activity in Equity Derivatives and Trading, particularly in Asia and Europe
- Consistent performance from asset finance portfolio principally from the UK energy markets business. Established joint venture with Mitsubishi UFJ to grow Australian Technology, Media and Telecoms business
- Maintained ranking as No. 2 physical gas marketer in North America²
- No.1 Futures Broker on the ASX³

Macquarie Capital

(~8%)

1H21 contribution¹

- 100 transactions valued at \$A58.4b⁴ completed globally, down on pcp
- Fee revenue down on pcp across advisory and DCM, marginally offset by ECM. Investment-related income up significantly on pcp
- Continued focus on green energy:
 - Over 250 projects under development and construction, with a pipeline of more than 30GW⁵
 - Investment across the green energy project lifecycle with 7 projects reaching FID, with a further 7 projects becoming operational⁶
 - Introduced investors into over 1.1GW projects as they reached FID or COD⁶
- No. 1 in ANZ for ECM⁷, IPOs⁸ and M&A⁹ in CY20
- Partial realisation of our interest in Nuix through an ASX IPO valuing the business at \$A1.8b. Macquarie acted as Joint Lead Manager, Bookrunner and Underwriter to the IPO, the largest ASX IPO in CY20¹⁰
- Acted as exclusive sell-side adviser on the sale of Exemplar Health Care, a UK provider of specialty care for adults with high acuity health needs, to an Ares Management Corporation managed fund
- Principal Finance committed over \$A3.4b FY21 YTD through focused investing in credit markets and providing bespoke financing solutions to sponsor portfolio companies and corporate clients across a range of industry sectors
- First acquisition in South America, a majority interest in the 206km Briceño-Tunja-Sogamoso operating toll road, one of Colombia's most critical road infrastructure assets, serving ~17m users per year
- Macquarie Electronic Execution achieved top Greenwich Asia Equities rankings with long only investors in 2020¹¹

1. Based on 1H21 net profit contribution from operating groups as reported on 6 Nov 20. Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax. 2. S&P Global Platts 3Q 2020. 3. ASX Futures 24 (SFE) Monthly Report Dec 20. 4. Source: Dealogic and IGlobal for Macquarie Group completed M&A, investments, ECM and DCM transactions converted as at the relevant report date. Deal values reflect the full transaction value and not an attributed value. 5. At 31 Dec 20. 6. 1 Apr 20 – 31 Dec 20. 7. Dealogic (ex-blocks & by value). 8. Dealogic (by value). 9. Dealogic (completed by value). 10. Dealogic (ASX IPOs by value). 11. ex-Japan and Australia.

SINCE SEP 20

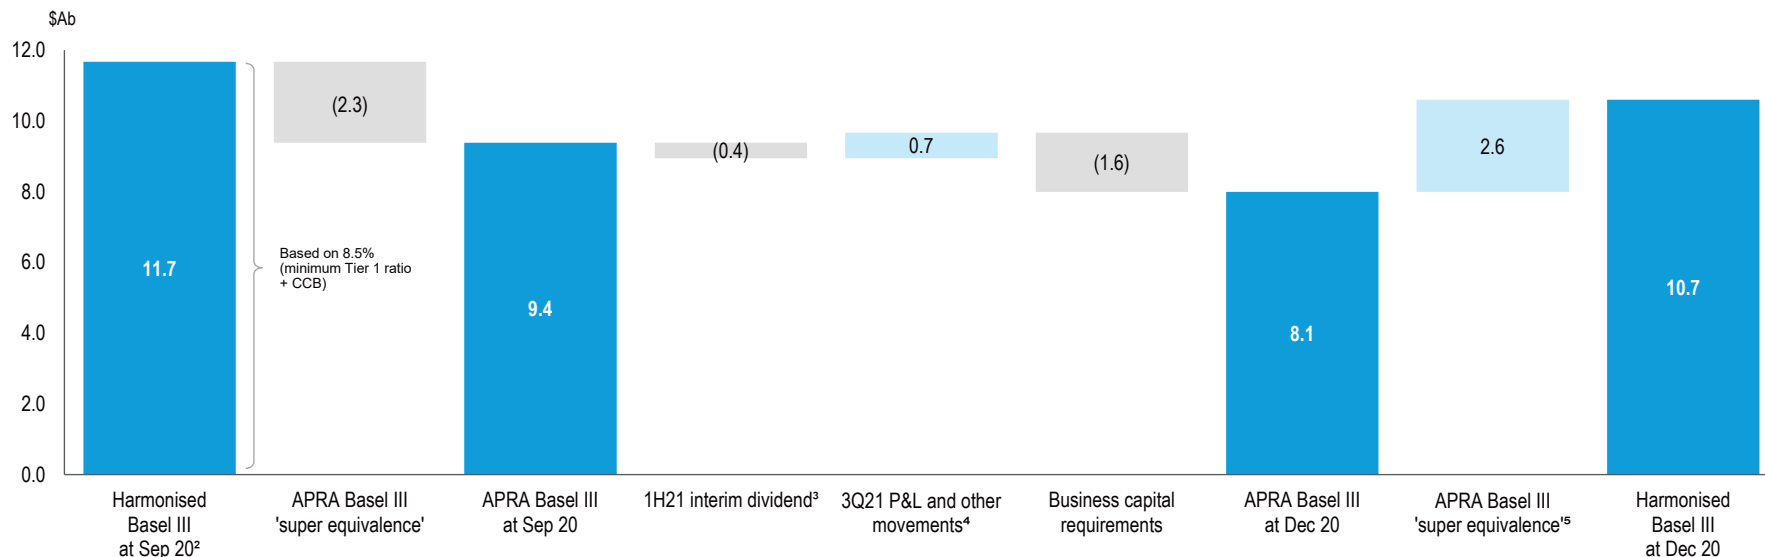

These charts represent Macquarie's funded balance sheets at the respective dates noted above. 1. 'Other debt maturing in the next 12 months' includes Secured funding, Bonds, Other loans, Subordinated debt and Net trade creditors. 2. 'Debt maturing beyond 12 months' includes Subordinated debt, Structured notes, Secured funding (including drawn RBA Term Funding Facility), Bonds, Syndicated loan facilities and Other loans not maturing within next 12 months. 3. Non-controlling interests are netted down in 'Equity and hybrids', 'Equity investments and PPE' and 'Loan assets (incl. op lease) > 1 year'. 4. Hybrid instruments include Macquarie Additional Capital Securities, Macquarie Capital Notes 2, 3 and 4 and Macquarie Bank Capital Notes 2. 5. 'Cash, liquids and self-securitised assets' includes self-securitisation of repo eligible Australian assets originated by Macquarie, a portion of which Macquarie can utilise as collateral in the Reserve Bank of Australia's Committed Liquidity Facility (CLF) and Term Funding Facility (TFF). 6. 'Loan Assets (incl. op lease) > 1 year' includes Debt investment securities. 7. 'Equity investments and PPE' includes Macquarie's co-investments in Macquarie-managed funds and other equity investments. 8. Issuances cover a range of tenors, currencies and product types and are AUD equivalent based on FX rates at the time of issuance and include undrawn facilities (does not include undrawn accessible TFF Allowances).

Basel III capital position

- APRA Basel III Group capital at Dec 20 of \$A24.9b; Group capital surplus of \$A8.1b¹
- APRA Basel III CET1 ratio: 12.1%; Harmonised Basel III CET1 ratio: 15.5%

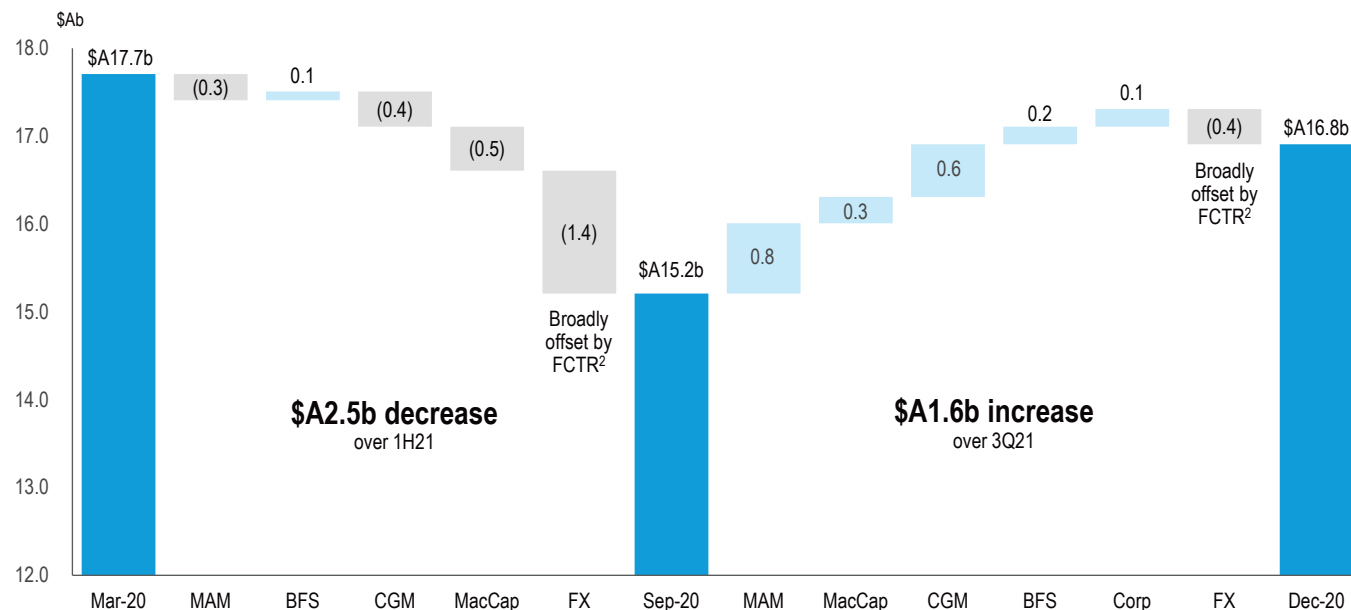

Group regulatory surplus: Basel III (Dec 20)

1. Calculated at 8.5% RWA including the capital conservation buffer (CCB), per APRA ADI Prudential Standard 110. Based on materiality, the 8.5% used to calculate the Group capital surplus does not include the countercyclical capital buffer (CCyB) of ~1bps. The individual CCyB varies by jurisdiction and the Bank Group's CCyB is calculated as a weighted average based on exposures in different jurisdictions. 2. Basel III applies only to the Bank Group and not the Non-Bank Group. 'Harmonised' Basel III estimates are calculated in accordance with the BCBS Basel III framework. 3. Offset by Dividend Reinvestment Plan issuance. 4. Includes current quarter P&L, movement in the foreign currency translation reserve and other movements in capital supply. 5. APRA Basel III 'super-equivalence' includes the impact of changes in capital requirements in areas where APRA differs from the BCBS Basel III framework, including the treatment of mortgages \$A1.0b; capitalised expenses \$A0.5b; equity investments \$A0.3b; investment into deconsolidated subsidiaries \$A0.2b; DTAs \$A0.6b.

Business capital requirements¹

3Q21 KEY DRIVERS

MAM

- Waddell & Reed

Macquarie Capital

- Principal Finance lending activity, new investments and DCM underwriting positions; offset by asset realisations

CGM

- Derivatives trading volumes in addition to loans and commitments

BFS

- Growth in residential mortgages and Business Banking portfolio, partially offset by runoff in vehicles financing

Corporate

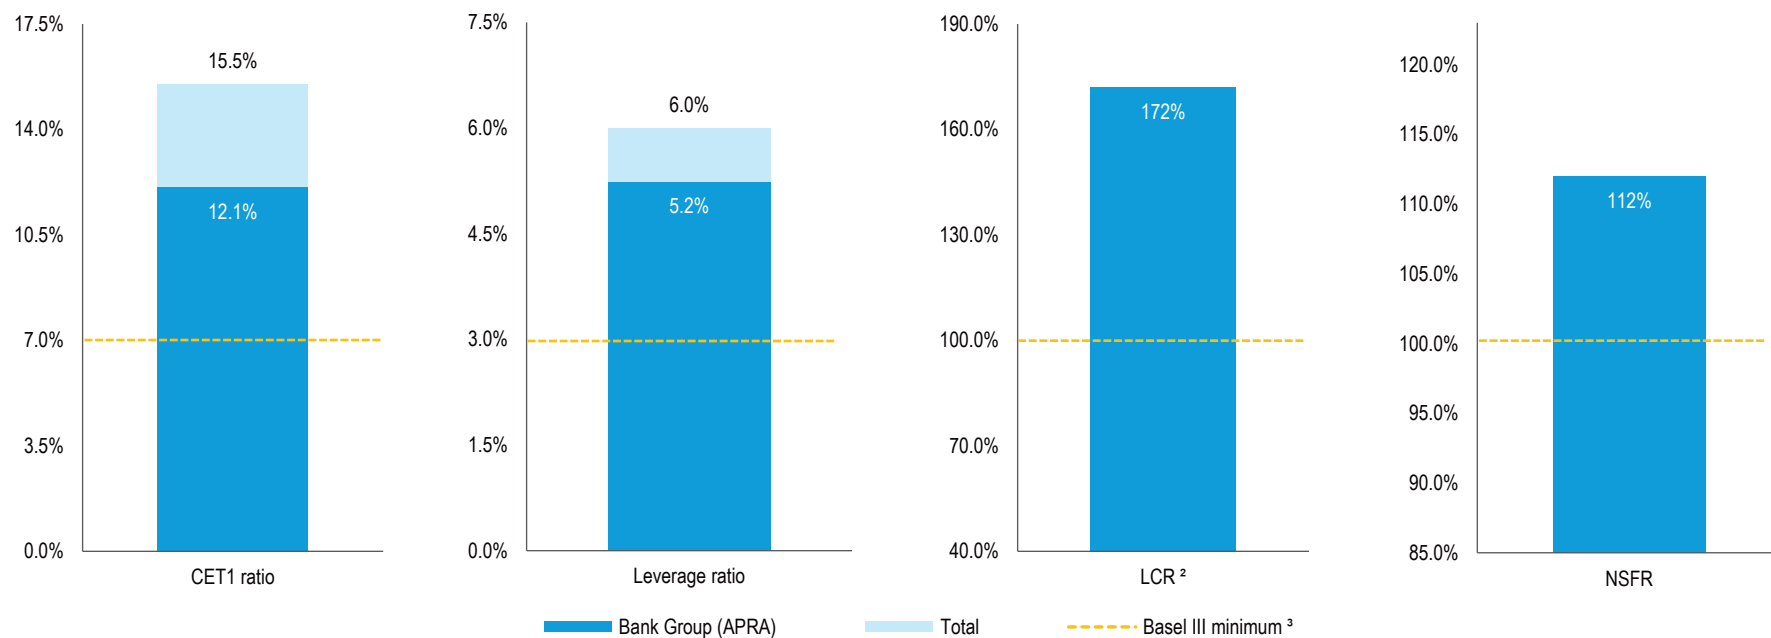

- Transfer of the Group shared services entities, from the Non-Bank to the Bank

1. Regulatory capital requirements are calculated at 8.5% RWA. 2. The foreign currency translation reserve (FCTR) forms part of capital supply and broadly offsets FX movements in capital requirements.

Strong regulatory ratios

Bank Group (Dec 20)

1. 'Harmonised' Basel III estimates are calculated in accordance with the BCBS Basel III framework. 2. Average LCR for Dec 20 quarter is based on an average of daily observations. 3. Includes the capital conservation buffer in the minimum CET1 ratio requirement. APRA has released a draft update to 'Prudential Standard APS 110 Capital Adequacy' proposing a minimum requirement for the leverage ratio of 3.5% effective Jan 23.

Regulatory update

Australia

- On 8 Dec 20, APRA released for consultation its revisions to the capital framework for ADIs¹. The changes are aimed at embedding 'unquestionably strong' levels of capital, APRA's stated objectives of the revisions include:
 - greater risk sensitivity within the risk weighting framework, including more differentiated risk weights for different types of mortgages and reduced risk weights for small business lending;
 - providing for ADIs to hold a larger share of their required capital as buffers, enhancing the ability of the framework to respond flexibly to future stress events; and
 - improving the transparency of the framework by requiring all ADIs to disclose their capital ratios on a common basis, and making it easier to reconcile the Australian framework with international standards.
- The status of the relevant regulatory changes is shown in the table below

Regulatory Change	Status	Compliance date
APS 110 (Capital Floor, CCB, CCyB, Leverage ratio)	Draft standard released 8 Dec 20	
APS 112 (Standardised credit risk)	Draft standard released 8 Dec 20	
APS 113 (IRB credit risk)	Draft standard released 8 Dec 20	1 Jan 23
APS 115 (Operational risk)	Standard finalised 11 Dec 19	
APS 117 (IRRBB)	Draft standard released 4 Sep 19	
APS 116 (FRTB)	Waiting for draft standard to be released	1 Jan 24
APS 111 (Capital treatment of banking and insurance subsidiaries)	Draft standard released 15 Oct 19, expected to be finalised 2021	TBA
APS 220 (Credit risk management)	Standard finalised 12 Dec 19, further revisions in consultation due 29 Jan 21	1 Jan 22
APS 222 (Associations with related entities)²	Standard finalised 20 Aug 19	

- Based on current information available, it remains Macquarie's expectation that it will have sufficient capital to accommodate likely additional regulatory Tier 1 capital requirements as a result of the proposed changes. Noting that some of them are at an early stage of review and hence the final impact is uncertain
- As previously noted, APRA is in discussions with Macquarie on resolution planning and intragroup funding. These discussions are progressing and as part of the discussions, MGSA, the main Group shared services entity for both the Bank and Non-Bank groups, was transferred to the Bank Group in Nov 20
- On 12 Nov 20, APRA released its revised remuneration standard for consultation, with responses due 12 Feb 21³. The new standard requires boards to strengthen incentives to manage non-financial risks, regularly assess for risk management failings and have deferral arrangements that allow boards to reduce remuneration for poor risk outcomes. The new CPS 511 is scheduled to be finalised in mid-2021 and to come into effect on 1 Jan 23. Increased disclosure requirements will also be required, defined through a future consultation expected late 2021
- On 17 Nov 20, APRA confirmed it intends to grant Macquarie a 12-month period of transition to 1 Jan 23 in relation to APS 222. Macquarie will undertake some restructuring of existing business activities and legal entities as a result of APS 222, however Macquarie does not anticipate this will have a material impact on results
- On 9 Dec 20, APRA announced the commencement of a further consultation for revisions to APS 220. These revisions are contingent on the Government's proposed consumer credit reforms passing legislation, where ADIs would no longer be subject to Responsible Lending Obligations which had been administered by ASIC⁴. APRA proposes to bring forward the implementation date for APS 220 to align to the reforms' commencement date, if earlier than 1 Jan 22, but not before 1 Apr 21
- On 15 Dec 20, APRA provided updated capital management guidance. From 1 Jan 21, while APRA will expect ADIs to continue to moderate dividend payout ratios and consider the use of dividend reinvestment plans (DRPs) and/or other capital management initiatives, APRA will no longer hold ADIs to a minimum level of earnings retention⁵

1. 'APRA seeks to enhance flexibility and resilience of ADI capital framework'; 8 Dec 20. 2. 'APRA announces new commencement dates for prudential and reporting standards'; 16 Apr 20. 3. 'APRA releases revised remuneration standard for consultation'; 12 Nov 20. 4. 'APRA issues letter to ADIs on potential changes to credit risk management'; 9 Dec 20. 5. 'APRA updates capital management guidance and releases ADI stress test results'; 15 Dec 20.

Regulatory update

Germany

- Macquarie continues to respond to requests for information about its historical activities as part of the ongoing, industry-wide investigation in Germany relating to dividend trading
- As previously noted, the German authorities have designated as suspects approximately 100 current and former Macquarie staff in total, most of whom are no longer at Macquarie
- The total amount at issue is not material and MGL has provided for the matter

Brexit

- In Dec 20 agreement was reached between the UK and the European Union (EU) on a new Trade and Cooperation Agreement and the UK withdrawal from the EU took effect
- As previously stated, Macquarie does not believe that the UK's withdrawal from the EU will be a material event for the Group
- Macquarie is now operating with all required European licences in place, including a new MiFID investment firm licence in France
- Macquarie has a longstanding and deep commitment to the UK as the hub for the EMEA region's operations and this will continue to be the case. Macquarie has been in the UK for 31 years with over 1,900 staff based there as at 31 Dec 20

Board and Management Update

Macquarie Group and Macquarie Bank Boards

Gordon Cairns

Rebecca McGrath

Mike Roche

After more than six years on the MGL and MBL Boards, Gordon Cairns will step down on 7 May 21. In November 20, Mr Cairns agreed to extend his tenure to accommodate evolution of the Boards, which occurred with the appointment of Rebecca McGrath and Mike Roche in Jan 21.

Macquarie Bank Limited

Mary Reemst

Stuart Green

After 22 years with Macquarie, Mary Reemst has decided to retire from her role as Managing Director and Chief Executive Officer of MBL, from the MBL Board and from the MGL and MBL Executive Committees, effective 1 Jul 21. Ms Reemst, who has been on the Executive Committees for seven years, also serves as the Chair of the Macquarie Group Foundation.

From 1 Jul 21, and subject to regulatory approvals, Stuart Green will become Managing Director and Chief Executive Officer of MBL and join the MBL Board and MGL and MBL Executive Committees. Mr Green has been with Macquarie for 20 years, serving as Group Treasurer since Aug 13.

Macquarie Asset Management

Martin Stanley

Ben Way

After 16 years with Macquarie, Martin Stanley has decided to step down as Group Head of MAM and from the Executive Committee, effective 1 Apr 21. Mr Stanley, who has been on the Executive Committee for two years, will become Chairman of MAM and remain on the regional infrastructure fund investment committees and as Chairman of the Board of Directors of the NYSE-listed Macquarie Infrastructure Corporation (NYSE: MIC).

Ben Way will become Group Head of MAM and join the Executive Committee. Mr Way, who has been with Macquarie for 14 years and is a member of Macquarie's Management Committee, currently leads the Global Alternatives division in MAM and is also Macquarie Group's Asia CEO. Mr Way will continue to be based in Hong Kong.

Factors impacting short-term outlook

Annuity-style businesses

Non-Banking Group

Macquarie Asset Management (MAM)

- Base fees expected to be broadly in line with FY20
- Net Other Operating Income¹ expected to be significantly down, due to strong realisations in FY20 and prolonged impact of COVID-19 on Macquarie AirFinance customers

Banking Group

Banking and Financial Services (BFS)

- Ongoing monitoring of provisioning to support clients in the COVID-19 environment
- Higher deposit and loan portfolio volumes in FY21
- Platform volumes subject to market movements
- Competitive dynamics to continue to drive margin pressure

Markets-facing businesses

Non-Banking Group

Macquarie Capital² (MacCap)

- Transaction activity improving, although challenging markets continue to impact the time to completion for many deals. Strong ECM activity in Australia through 1H21 has not continued in 2H21 to date
- FY21 expected to be significantly down on FY20, however 2H21 expected to be significantly up on 2H20

Banking Group

Commodities and Global Markets³ (CGM)

- 2H21 market conditions expected to be more favourable than previously anticipated given increased levels of volatility experienced in 3Q21
- We now expect 2H21 to be slightly down on 1H21
- Consistent contribution from Specialised and Asset Finance linked to annuity flows; notwithstanding reduction in balance sheet
- Product and client sector diversity expected to provide some support through ongoing uncertain economic conditions in FY21

Corporate

- Compensation ratio expected to be within the range of historical levels
- The FY21 effective tax rate is expected to be broadly in line with FY20

1. Net Other Operating Income includes all operating income excluding base fees. 2. Certain activities of the Equities business are undertaken from within the Banking Group. 3. Certain assets of the Credit Markets business and certain activities of the Commodity Markets and Finance business, and some other less financially significant activities are undertaken from within the Non-Banking Group.

Short-term outlook

Market conditions are likely to remain challenging, especially given the significant and unprecedented uncertainty caused by the worldwide impact of COVID-19 and the uncertain speed of the global economic recovery, making short-term forecasting extremely difficult

We currently anticipate the FY21 result to be slightly down on FY20¹

The range of factors that will influence our short-term outlook include:

- The duration and severity of the COVID-19 pandemic
- The uncertain speed of the global economic recovery
- Global levels of government support for economies
- Completion of period-end reviews including asset impairment and expected credit loss allowances
- The completion rate of transactions
- Geographic composition of income
- The impact of foreign exchange
- Potential tax or regulatory changes and tax uncertainties
- Market conditions and the impact of geopolitical events

We continue to maintain a cautious stance, with a conservative approach to capital, funding and liquidity that positions us well to respond to the current environment

1. Pursuant to ASX Guidance Note 8, as revised on 9 Dec 20, Macquarie states that (i) the anticipated FY21 result to which the above guidance relates, is expected to differ materially from the current range of current analysts' consensus and (ii) this 2021 Operational Briefing Presentation explains the main factors as to why the anticipated FY21 result may differ to market expectations.

Medium-term outlook

Macquarie remains well-positioned to deliver superior performance in the medium term

Deep expertise in major markets

Build on our strength in business and geographic diversity and continue to adapt our portfolio mix to changing market conditions

- Annuity-style income is primarily provided by two Operating Groups' businesses which are delivering superior returns following years of investment and acquisitions
 - Macquarie Asset Management and Banking and Financial Services
- Two markets-facing businesses well positioned to benefit from improvements in market conditions with strong platforms and franchise positions
 - Commodities and Global Markets and Macquarie Capital

Ongoing program to identify cost saving initiatives and efficiency

Strong and conservative balance sheet

- Well-matched funding profile with minimal reliance on short-term wholesale funding
- Surplus funding and capital available to support growth

Proven risk management framework and culture

Medium term

Annuity-style businesses

Non-Banking Group

Macquarie Asset Management (MAM)

- Leading specialist global asset manager, well-positioned to respond to current market conditions and grow assets under management through its diversified product offering, track record and experienced investment teams

Banking Group

Banking and Financial Services (BFS)

- Growth opportunities through intermediary and direct retail client distribution, platforms and client service
- Opportunities to increase financial services engagement with existing business banking clients and extend into adjacent segments
- Modernising technology to improve client experience and support growth

Markets-facing businesses

Non-Banking Group

Macquarie Capital¹ (MacCap)

- Positioned to benefit from recovery in transaction activity
- Continues to tailor the business offering to current opportunities and market conditions including providing flexible capital solutions across sectors and regions
- Opportunities for project development and balance sheet investment by the group and in support of partners and clients subject to market conditions

Banking Group

Commodities and Global Markets² (CGM)

- Opportunities to grow commodities business, both organically and through acquisition
- Development of institutional and corporate coverage for specialised credit, rates and foreign exchange products
- Tailored financing solutions globally across a variety of industries and asset classes
- Continued investment in asset finance portfolio
- Growing client base across all regions

1. Certain activities of the Equities business are undertaken from within the Banking Group. 2. Certain assets of the Credit Markets business and certain activities of the Commodity Markets and Finance business and some other less financially significant activities are undertaken from within the Non-Banking Group.

Approximate business Basel III Capital and ROE

30 Sep 20

Operating Group	APRA Basel III Capital ¹ @ 8.5% (\$Ab)	Approx. 1H21 Return on Ordinary Equity ²	Approx. 14-year Average Return on Ordinary Equity ³
Annuity-style businesses	6.6		
Macquarie Asset Management	2.2		
Banking and Financial Services	4.4	24%	22%
Markets-facing businesses	8.0		
Commodities and Global Markets	4.6		
Macquarie Capital	3.4	10%	16%
Corporate	0.6		
Total regulatory capital requirement @ 8.5%	15.2		
Group surplus	9.4		
Total APRA Basel III capital supply	24.6⁴	9.5%	14%

Note: Differences in totals due to rounding. 1. Operating Group capital allocations are based on 30 Jun 20 allocations adjusted for material movements over the Sep 20 quarter. 2. NPAT used in the calculation of approximately 1H21 ROE is based on Operating Groups' annualised net profit contribution adjusted for indicative allocations of profit share, tax and other corporate items. Accounting equity is attributed to businesses based on regulatory capital requirements which are based on the quarterly average capital usage from FY07 to FY20, inclusive. 3. 14-year average covers FY07 to FY20, inclusive, and has not been adjusted for the impact of business restructures or changes in internal P&L and capital attribution. 4. Comprising of \$A20.5b of ordinary equity and \$A4.1b of hybrids.

1. As at 31 Dec 20. 2. Percentage of assets under management outperforming their respective benchmarks on a 10-year basis. Data as at 31 Dec 20. 3. As at 30 Sep 20. Calculated as the annualised return across all infrastructure portfolio businesses realised to third parties, including all equity investments and realised proceeds. Excludes unrealised returns for infrastructure businesses no longer managed by MIRA funds due to fund level initiatives, such as the restructuring or internalisation of management functions, and the sale of management rights. Cash flows are converted to AUD applying the spot FX rate as at the date of each fund's acquisition of the relevant portfolio business. Past performance is not indicative of future results. Returns on realised infrastructure businesses represent returns to the applicable fund. The figures or performance, as applicable, do not represent returns to underlying investors in the funds. Does not reflect management fees, performance fees, taxes and other expenses to be borne by investors in the applicable funds, which may be substantial. 4. Metrics include five years from Jan 16 to Dec 20. 5. P&I Largest Money Managers 2019, published in Jun 20. 6. IPE Real Assets (Jul/Aug 20). 7. Insurance AUM Journal, 2019 Insurance Asset Management Leaders published 2019. 8. As at 31 Dec 20 - Strategic Insight, Morningstar. 9. Excludes \$A2.8b of equity proceeds returned to investors in Jan 21.

Enhancing resilience of infrastructure

Geo-hazard early warning systems and weather-resilient cooling towers at geothermal plant in the Philippines

Technology to monitor vegetation encroachment on power lines to reduce risk of bushfires in Australia

Under grounding 26,000km of electricity cables in Finland to minimise disruption caused by extreme weather events

Precision farming techniques being used to improve soil health and combat land degradation in Australia

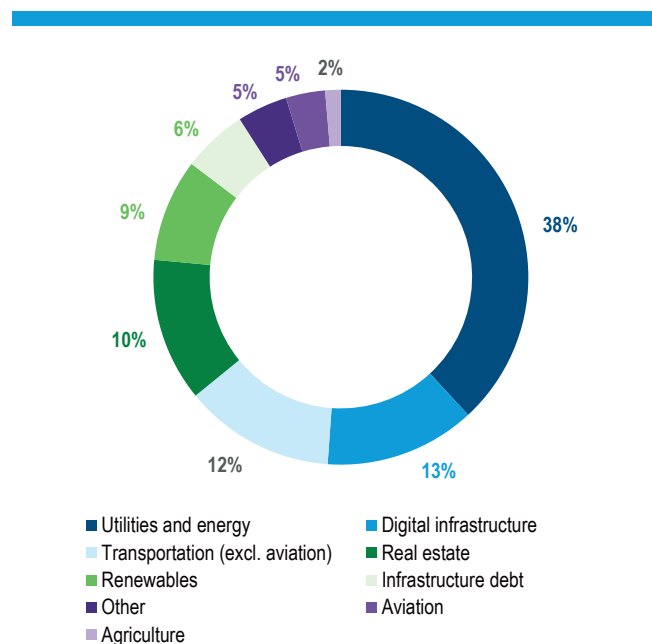

Led the construction of flood barriers prior to taking ownership of an asset in the United States

Resilient performance in the face of COVID-19

Our alternatives portfolio¹

Portfolio performance has been resilient outside of aviation sector

Activity levels have remained high across the platform

Strong fundraising activity with \$A15.5b capital raised since Mar 20

Flexible working culture has ensured team **resiliency and continued outcomes**

Utilities and energy: 38%

Critical nature of services supports continued resilience. Electricity demand not materially impacted. Continued focus on energy transition

Digital infrastructure: 13%

Remote and flexible work practices supporting increased usage and demand for connectivity

Transportation (excl. aviation): 12%

Road traffic has rebounded following earlier impacts. Port volumes following economic cycle, with resilient goods sector and normalising trade driving rebound

Real estate: 10%

Online shift supporting resilience of logistics/industrial real estate. Mixed impact on office with WFH offset by rising space per worker due to social distancing

Renewables: 9%

Continued generation, albeit with lower power prices in some areas (partially offset by regulatory/revenue support). Delays to some construction projects due to supply chains

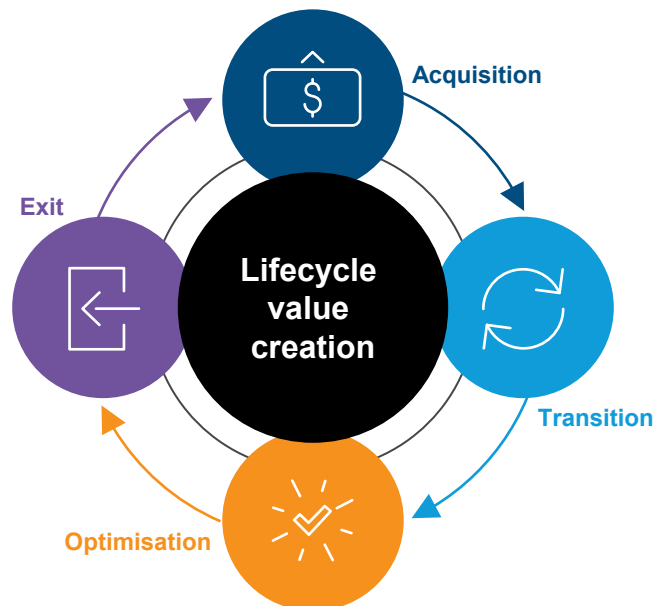

Aviation: 5%

Airports serving commercial aviation sector materially impacted by travel restrictions. Macquarie Air Finance working closely with customers and stakeholders

Adding value throughout the investment lifecycle

- Long-term investment approach, delivering positive outcomes for clients, portfolio companies and communities
- Boutique active public investments teams with deep sectoral expertise across equities and fixed income.
- Diverse alternatives team with deep industry and operational experience to manage and enhance real asset businesses
- Global scale, technical expertise and networks allow us to undertake increasingly complex transactions
- ESG considerations embedded within our investment decision making and asset management frameworks

AirTrunk

Leading Asia-Pacific hyperscale data centre provider, capable of delivering a total planned capacity of ~750MW across six data centres in five tier one markets. Macquarie Asia-Pacific Infrastructure Fund 2 (MAIF2) and its partners reached financial close on the acquisition of an 88% stake in AirTrunk in Apr 20.

Key progress since acquisition:

- 300MW+ hyperscale data centre campus launched in Tokyo with an initial 60MW phase targeted to open in late 2021
- Two data centres opened in Singapore and Hong Kong in Dec 20, with a combined capacity of more than 80MW
- 110MW+ hyperscale data centre campus launched in Sydney (second AirTrunk site in Sydney)
- Over \$A1b capex deployed since Apr 20
- Range of new contracts signed with major global hyperscale customers

Our real estate business

Global business with deep networks, broad capabilities and strong track record

Global commercial real estate **AUM of ~\$A5t¹** continues to grow

Investor appetite for real estate remains strong with increasing allocations and attractive yield spread to bonds

Global mega-trends are both disrupting and accelerating real estate investment opportunities

- Urbanisation
- Changing demographics
- Digitalisation

Global business providing investors access to **investment opportunities across the real estate risk-return spectrum**

Experienced team of over 200 that capitalises on long-term trends to create value for clients and partners:

- Beds, sheds, bytes, desks
- Develop-to-core strategies capitalising on attractive development yield spreads and strong sector/ market fundamentals
- Partnerships with leading global investors in management platforms

Focused on **two key strategies**:

- **Core / core-plus**
 - Investing in and managing office, logistics and retail assets
 - Driving performance through disciplined market selection and active asset management
- **Opportunistic**
 - Investing in and partnering with specialist real estate platforms targeting sectors supported by structural tailwinds or market dislocation
 - Leveraging principal investment track record

LPC

US logistics platform

- **Established in Feb 18**, majority owned by MIRA Real Estate alongside management team
- Strategy to create a **fully integrated development and investment management logistics platform** to capitalise on the long-term demand being created by the growth in ecommerce
- **~\$US280m balance sheet commitment** to acquire and warehouse seed portfolio for initial 'develop-to-core' venture
- **\$US1b LPC Venture 1 capital raise** completed in 2020 with global real estate investors, with a projected portfolio end value of +\$US2.5b
- Since inception, the platform has grown from 11 employees to **50 employees today**

Our private credit and asset finance businesses

Global businesses with proven track record of matching private market capital to growing asset classes

Private credit

Growing market for private credit funds, with AUM of ~\$US900b and forecast to grow to ~\$US1.5t by 2025¹

Capital spans the full risk spectrum, from quasi sovereign (local government, social housing) to high yield and bank capital relief financings

Zero losses or impairments to date

Impactful investments are a core part of the business and include:

- Green energy debt investments that have financed over **15GW of clean energy**²
- **22,000+** affordable housing units²

MAM's Private Credit business is expanding further within infrastructure as well as into adjacencies, including **Secure Income Real Estate**

 **~\$A12b**
assets under management²

 **120+**
investments

 **\$US5b**
capital under management^{2,3}

 **300+**
aviation assets

Transportation finance

MAM's Transportation Finance has a **15-year track record** of investing in movable transportation assets, including aircraft, rail and helicopter assets

MAM remains committed to the sector and is working with selected partners for co-investment. With **deep experience across markets and through cycles**, the Transportation Finance team is well placed to identify the opportunities which will deliver **long-term value** to investors

Near term, these markets to benefit from current trends, including in particular:

- **Dislocation in the aviation equity and debt markets**, resulting from COVID-19 disruption
- **Transition to lower emissions fuels and technologies** across all transportation sectors

CASE STUDY

Sub-Investment Grade infrastructure debt Strategy

- **~€1.2b** raised from institutional investors
 - of which **~€730m** via the flagship Macquarie Infrastructure Debt (Sub-Investment Grade) Fund
- Invested across the **utilities, energy, renewables** and **transport infrastructure** sectors
- **Invested in 14 borrowers** in the United Kingdom, United States, Italy, Finland, and the Netherlands
- Majority of assets negotiated on a **bilateral basis** and sourced through **MAM proprietary channels**
- Attracted interest from **21 pension funds and insurance companies** across the United Kingdom, Korea, Japan, Italy, and Portugal

Approach to risk management and risk culture

Risk is owned within the business, with independent sign off by Risk Management Group

Financial risk

- Credit and equity risk critical component of investing and underwriting businesses
- Seek to understand worst case scenarios
- Intensive diligence focus on fundamentals analysis and risk assessments on position by position basis
- Group-wide stress testing overlay
- Continued asset management and review of positions

Non-financial risk

- A well established and effective risk culture
- Focus areas include: Operational Risk, Compliance, Work Health and Safety, Environment, and Anti-Bribery and Corruption (internally as well as within investments and developments)
- Significant investment in Work, Health, Safety and Environment systems, procedures, training and oversight
- Conduct specific non-financial risk due diligence
- Engage specialist internal and third-party subject matter experts
- Comprehensive ongoing monitoring

- Leading education sector expertise in US
 - 41 M&A deals (total \$US23b+ deal value)
 - \$US570m+ direct investment
 - 17 debt financings (total \$US12b+)
 - 12 equity offerings (total ~\$US3b)
- Leveraging expertise globally
- Building relationships with companies and partners earlier:
 - Completed multiple early-stage investments
 - Enables us to support clients and grow with them

(1) HolonIQ 2020 10 Charts for a Changing Education Market.

Case Study: Penn Foster

Company overview

Provider of affordable, self-paced online education including high school, college and career school programs

Offers 100+ accredited degree, diploma and certification programs in fields ranging from healthcare to skilled trades

Opportunity

- Penn Foster provides flexible, career-focused and education programs as well as supportive coaching services
- Opportunity for Macquarie to provide capital and share its insights into the growing role of technology in education

Actions

2018

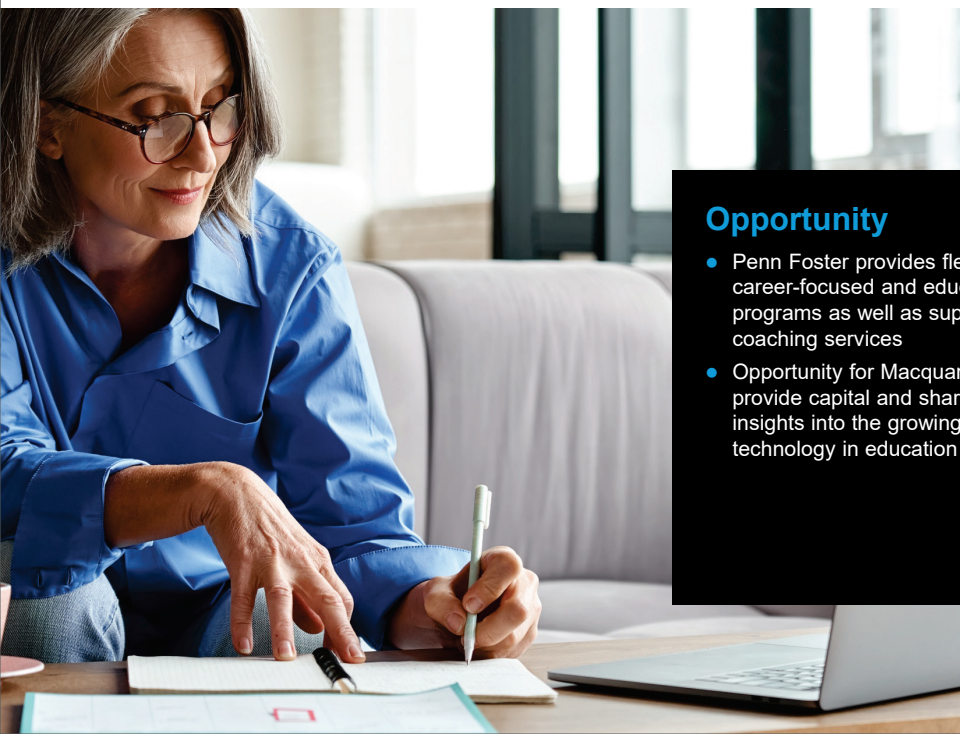

- Macquarie preferred equity investment
- Positioned the company to be a crucial part of closing America's skill and equity gaps

2020

- Macquarie acted as sell-side advisor
- Facilitated a competitive sales process despite COVID-related logistical challenges

Outcomes

- Macquarie facilitated a successful outcome for shareholders
- Penn Foster will continue to deliver skill-based training for more than 300,000 working learners each year
- Investment will accelerate the pairing of data science with skills-based digital learning

Principal Finance as a key differentiator

We invest to facilitate outcomes for our clients, communities and the firm

- Multi-strategy approach
 - Debt and equity
 - Corporate and real estate
- Multiple pathways to create value, including:
 - Long-term investing
 - Flexible capital solutions
 - Investing around sector expertise
 - Supporting clients with co-investment capital
 - Leveraging external capital and funding partners to co-invest alongside Macquarie

Creating customised and flexible capital solutions for our clients across all industry sectors

More than 120 investment professionals with extensive experience dealing with complex deal dynamics

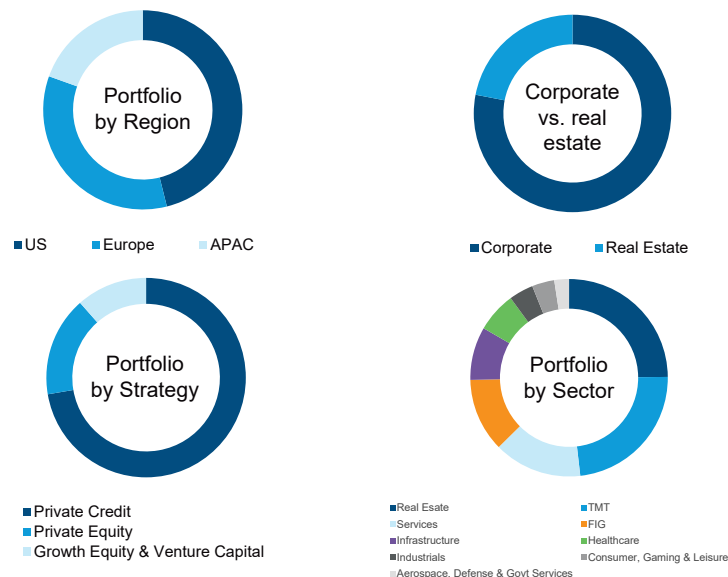

Depth of insight and collaboration across MacCap leads to opportunities for outsized outcomes

A diversified portfolio

Aligned with focus areas, our best results come from combining sector expertise with principal capabilities

\$A8.7b Principal Finance Portfolio

Private credit

Typical investment size: \$A100-300m

Top sectors:

FY21 Highlights

- 43% YoY growth in debt book size
- Completed funding of Navacord, a leading Canadian Insurance Brokerage
- Lead financier to Elite Partners Capital to acquire logistics assets in Europe

Private equity

Typical investment size: \$A100-300m

Top sectors:

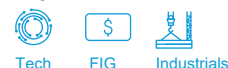

- £33m sale of Tavis House, a long leasehold office building in London
- Investment in Illion, a data and registry business bringing together our relationships, industry knowledge and principal capabilities

Growth equity & Venture capital

Typical investment size: ~\$A50m

Top sectors:

- IPO of Nuix in Dec 20 – outstanding result for the MCVV team with combined effort of the ECM and TMT teams
- Majority investment in one of the leading incident reporting software providers in Europe with an expanding compliance platform

What's next

Deep expertise in key transformative trends

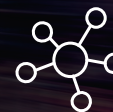

Geographic and adjacent expansion

Macquarie Capital businesses are **positioned well to grow** over the coming years.

Entrepreneurial mindset

Flexible solutions for clients including principal capital

Q&A

05

Corporate Operations Group

Nicole Sorbara, Group Head,
Chief Operating Officer

Justin Moffitt, Chief Information Officer

Adam Prettejohn, Head of Digital
Transformation and Data

Delivering service excellence and transformational change, we empower people to innovate and invest for a better future

Corporate Operations Group Nicole Sorbara

Digital Transformation & Data Adam Prettejohn

Partners with divisions and groups to deliver digital solutions whilst future skilling employees with capabilities in data analytics, innovation, human centred design and eliminating failure demand.

Technology Justin Moffitt

Manages core technology infrastructure including reliability and resilience of services, deploys digital and cloud-based applications, manages enterprise information, supports workplace and collaboration tools, manages cyber security, global security and fraud, and identifies emerging technology trends.

Operations Ian Beasley

Delivers critical operational trade support services to enable the trade lifecycle for a wide range of products and businesses. Provides operational services to support our global workforce including payroll, leave processing, staff queries, and learning and development administration.

Human Resources Lynnette Samo

Our most important asset is our people and HR works in close partnership with each group to attract the best, reward success, develop and retain talent and support complex regulatory and organisational change.

Business Services Tracey Macdonald

Creates workplace experiences - including Sydney Metro Martin Place - that enable people, clients and communities to connect, learn, collaborate and innovate together. Delivers group procurement services and builds business resilience across the organisation.

Business Improvement & Strategy Mura Ryan

Partners with Macquarie businesses and support areas to discover opportunities, solve problems and make change happen. Brings external insights and connections, understandings of Macquarie's businesses and builds strong cross-group relationships.

Macquarie Group Foundation Mura Ryan

Macquarie Group Foundation is a diverse team of experienced social impact professionals who support community organisations with funding, volunteering and skill sharing. The Foundation's strategic funding is targeted at education and employment initiatives, as well as game-changing ideas.

COG Central Kellie Vinn

Supports the day-to-day operations of COG including specialist accounting and financial reporting services, operational risk services and staff communication and engagement activities.

Regional COOs

Ange Burt (Americas), Scott Harmer (Asia) and Tim Mulvihill (EMEA)

Supports the day-to-day management of the Group within region.

Global team with specialist expertise

The organisation has access to a global network of more than 4,400 staff across 19 markets that provide a wide range of specialist services

Self-funding transformation and investing in technology

Core to success has been our ability to transform ourselves, our significant investment in technology and maintaining strong operational risk culture

Reinvestment of operating efficiencies

\$A132m

since FY15

Cumulative years of generating operating efficiencies has enabled COG to self-fund transformation

Investment in technology

\$A1.3b

FY20

19% of total technology investment is in change activity

Risk management

↓42%

in high rated incidents
(since FY15)

Effective management of organisational change, regulatory complexity and risk

COG leading Macquarie's response to COVID-19

Our long-term focus on building resilience in our people and technology enabled a global workforce of over 16,400 employees across 34 markets to work from home

COG leading Macquarie's response to COVID-19

Our response enabled the business to continue to deliver for our clients despite global market disruption

Enabled results to be delivered

32,400

Mortgages originated for BFS, up 17% from prior corresponding period

22.1m

trades settled, up 10% from prior corresponding period

259 MacCap¹ transactions valued

at **\$A244b**

Stayed connected with our clients

3,200

MIRA Investor Contacts provided with direct access to new investor portal

250,000

new cash, business banking and wrap accounts for BFS, up 71% from prior corresponding period

1,900+

New clients onboarded to CGM

Empowered our people to innovate and invest for a better future

92%

of employees feel as or more productive than before COVID-19

92%

of employees feel same or greater belonging in their team than before COVID-19

2,500

charities supported worldwide

Accelerating the digital future

Developing leadership, culture and technology skills in our people has been a priority because we know these capabilities empower everyone to innovate and invest for a better future

Leadership

Deeply embedding strategic and cultural alignment

Skills

Future skilling our people

Eliminating Failure Demand | Data Science
Innovation & Human Centred Design | Leading Change
Technology & Digitalisation | Critical Thinking

Technology

Innovative data-driven digital clients experiences with cloud-based infrastructure

TRANSFORMATION

Digital Transformation and Data Division

We partner with Groups to realise client-led opportunities and accelerate delivery of COG's digital transformation

Equipping our people with the skills to deliver transformation outcomes

1,500+

staff enabled with data literacy skills

1,000+

deeply trained in human centred design and eliminating failure demand

35+

transformation programs initiated in 2020

Established COG data science capability

Partnering with Groups to realise 'front-to-back' enterprise opportunities

Enterprise Digitalisation Strategy

Corporate Connected Data

CASE STUDY

Partnering with HR and Technology to deliver The HUB

- Accelerating on-demand digital Human Resource services to deliver client centric outcomes, operational efficiencies and employee lifecycle transformations

Partnering with Operations to automate processes using machine learning

- Leveraging eliminating failure demand, data science and human centred design practices to streamline our services

Technology Division

Investing in accelerating cloud adoption, modernising systems and increasing agility, automation and scale of our services

Transforming Macquarie's technology risk profile, increasing network resilience and modernising our systems

99.9%
system availability

↓24%
decline in legacy servers (FY19 to FY20)

Accelerating public cloud adoption, leveraging the benefits of agility, automation, scale and cost

750+
people with industry recognised agile and cloud certifications

775+
production apps in public cloud

Using data-driven insights to deliver innovative digital solutions for our clients

1b+
rows of international trade data analysed for CGM

\$A15m+
invested in automation to deliver efficiencies and improved BFS client self-service

CASE STUDY

Data and machine learning driving opportunities for CGM

- Using open-source software and public cloud to analyse data and develop machine learning models to make data-driven decisions

Partnering with BFS to accelerate data transformation

- Investing in public cloud technology to meet the needs of the next generation of banking technology

Technology Division

Supporting new ways of working, investing in Cyber Security to detect and prevent threats and delivering front to bank transformation

Deploying web-based applications and virtual desktops across our business

>5,000

virtualised desktops in use

>1,500

staff using virtual application supporting the breadth of our businesses

Continuing to develop cyber security capabilities and deploying tools to detect and prevent threats

1,750+

cyber security assessments completed

50,000+

devices security scanned every week

Delivering transformational change by eliminating failure demand and automating manual processes and controls

Targeting elimination of

12,500+

manual data changes per year

↓26%

decrease in Tech Assist support tickets

CASE STUDY

Automating front-to-back processes in MacCap

- Investing in software-as-a-service solutions to accelerate business process digitalisation and automation

Data and digital technology driving opportunities for MAM

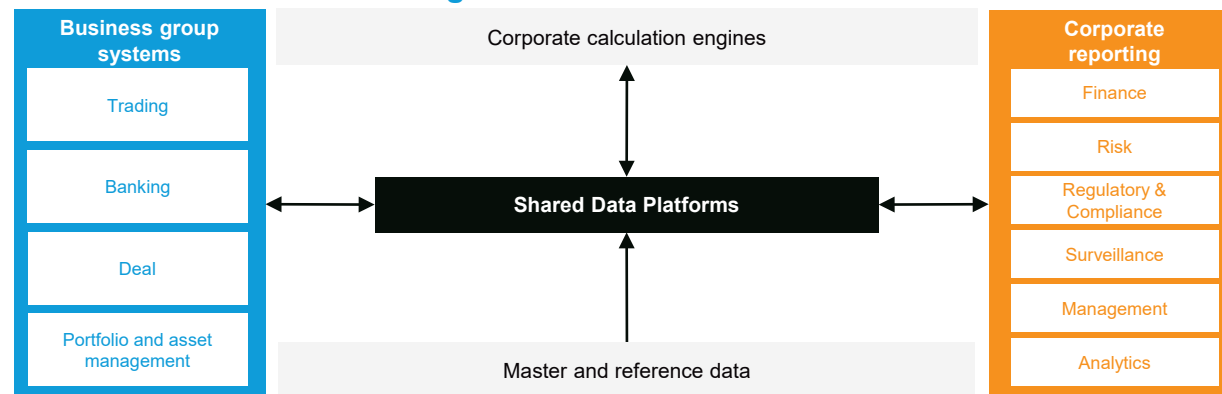

- Using data and digital technology to create a unified and single data platform to manage investments

What's next: Accelerating our enterprise data and digitalisation strategy

Macquarie's enterprise data and digitalisation strategy will enable us to better serve clients, adapt to changing regulations and transform front-to-back efficiency and risk

Target State Data Architecture

Data principles

- **True to source representation** provides data to meet different consumer perspectives
- **Timely data delivery** to meet increasing requirements for more timely reporting
- **Embedded data quality** to ensure consistency and quality of data and outcomes
- **Centrally shared** to increase data availability and reduce duplication
- **Calculations at point of expertise** to ensure correct application of business rules
- **Shared data models and definitions** to ensure consistency of data understanding
- **Authoritative sources** to increase consistency and accuracy of data

Enabled by:

- Empowering our people to identify and deliver transformation opportunities through a data-centric culture, future skilling and talent acquisition
- Delivering enterprise digitalisation through aligned initiatives, shared metrics and end-to-end solution architecture
- Leveraging Eliminating Failure Demand techniques and the enterprise change portfolio to incrementally re-engineer processes and technologies
- Investing in our common data 'building blocks' to accelerate how we manage, share and leverage data in the future

We are well positioned

We will continue to invest in our people, systems and operations to enable business outcomes and accelerate digitalisation for Macquarie

**Investment in
people and
technology**

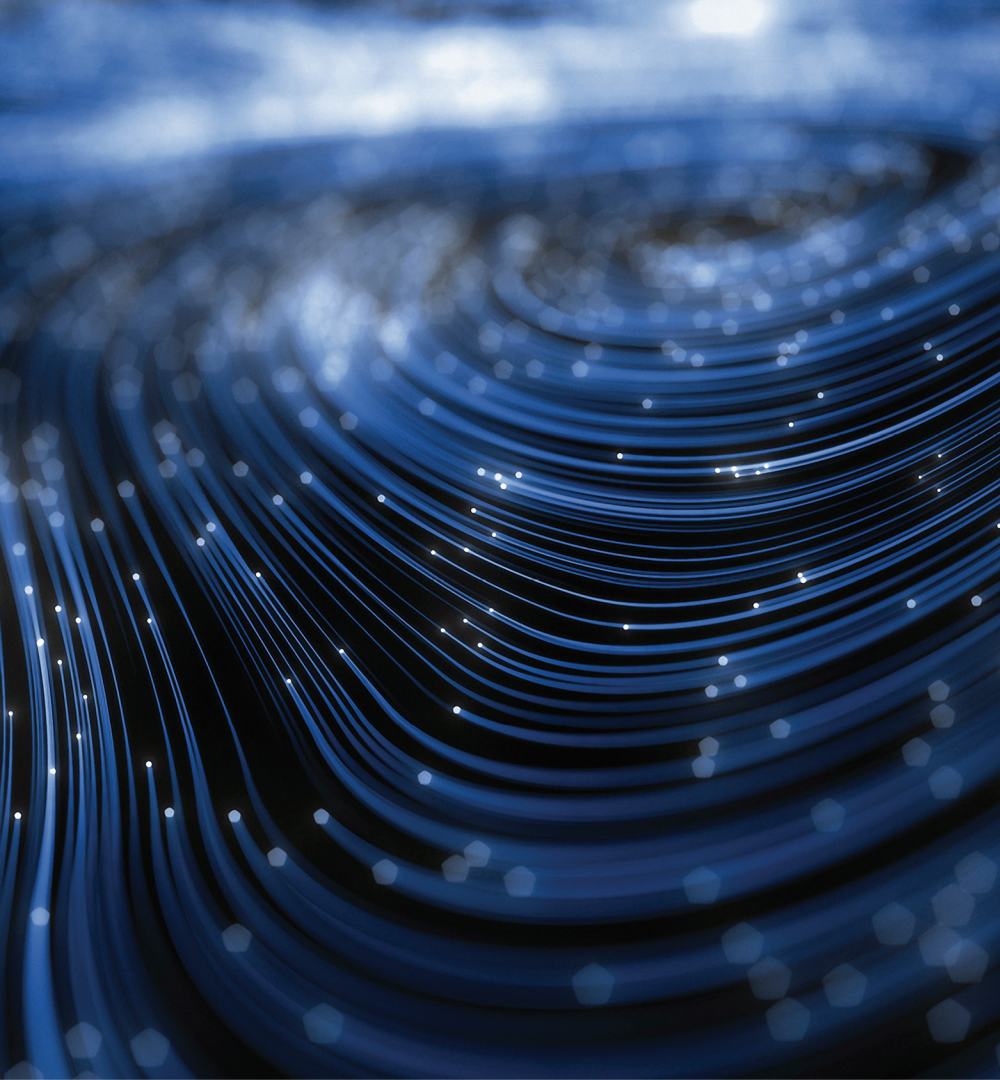

+

**Resilience
and
adaptability**
