Commodities and Global Markets

Commodities and Global Markets (CGM) is a global business offering capital and financing, risk management, market access, physical execution and logistics solutions to its diverse client base across Commodities, Financial Markets and Asset Finance.

Our teams

Commodities provides capital and financing, risk management, market access and physical execution and logistics services across the power, gas and emissions, agriculture and oil and resources sectors globally. The division also offers commodity-based index products to institutional investors.

Financial Markets provides clients with access to a wide range of service offerings across foreign exchange, rates, credit markets and listed derivative markets. Our clients benefit from strong deal execution and specialist financing solutions that are underpinned by deep technical and fundamental market analysis. Our main divisions in Financial Markets are:

- **Fixed Income and Currencies** provides currencies and fixed income trading and hedging services to a range of corporate and institutional clients globally.
- **Futures** provides a full range of execution, clearing and financing solutions to corporate and institutional clients, providing continuous 24-hour coverage of major markets globally.
- **Equity** Derivatives and Trading provides financing, access to markets, portfolio optimisation and hedging solutions to its diverse clients globally.

Asset Finance is a global provider of specialist finance and asset management solutions. Our expertise enables us to develop and deliver tailored innovative finance solutions across a range of industries around the globe.

Our Central division leverage the diverse expertise and technical capabilities of our people to develop cross-divisional initiatives and partner with CGM businesses to drive commercial outcomes. Bringing together non-financial risk functions, COO and CFO teams, data, legal and other specialist activities, the team empowers CGM to innovate and deliver for our clients.

Didn't study finance?

We welcome applications from all degree backgrounds including business/commerce, economics, engineering, mathematics and science.

What is it like to work with us?

You will partner and engage with clients and internal stakeholders to provide tailored, innovative solutions to maximise their opportunities in global markets. You will work in a fast-paced environment, developing your knowledge of market dynamics and producing fundamental market analysis and research.
