This Product Disclosure Statement (**PDS**) is a summary of significant information about the Macquarie Hedged Index International Equities Fund (**Fund**). It contains a number of references to additional important information contained in a separate information booklet (**Information Booklet**). This information forms part of the PDS and you should read the Information Booklet together with this PDS before making a decision to invest in the Fund. The information in this PDS and the Information Booklet may change from time to time. Where information that changes is not materially adverse to investors, we may update this information by updating the relevant document or by publishing an update at **macquarie.com/mam/pds**.

You can access a copy of the latest version of this PDS, the Information Booklet, the Target Market Determination (**TMD**) for the Fund and any updated information free of charge from our website or by contacting us.

The information provided in this PDS and the Information Booklet is general information only and does not take account of your personal financial situation or needs. You should obtain your own financial advice tailored to your personal circumstances.

This offer is only open to persons receiving this PDS and the Information Booklet within Australia or any other jurisdiction approved by us.

Other than Macquarie Bank Limited ABN 46 008 583 542 (**Macquarie Bank**), any Macquarie Group entity noted in this material is not an authorised deposit-taking institution for the purposes of the Banking Act 1959 (Commonwealth of Australia). The obligations of these other Macquarie Group entities do not represent deposits or other liabilities of Macquarie Bank. Macquarie Bank does not guarantee or otherwise provide assurance in respect of the obligations of these other Macquarie Group entities. In addition, (a) the investor is subject to investment risk including possible delays in repayment and loss of income and principal invested, and (b) none of Macquarie Bank, or any other Macquarie Group entity, guarantees any particular rate of return on or the performance of the investment nor do they guarantee repayment of capital in respect of the investment.

Unless stated otherwise, all references to 'dollars' or '$' herein refer to Australian dollars.

1. About Macquarie Investment Management Australia Limited

Macquarie Investment Management Australia Limited (**Macquarie**, **we**, **us**, **our**) is the responsible entity of the Fund. We are responsible for the investment decisions, management and administration of the Fund. We may delegate some of these duties, including investment management functions, to third parties. We have appointed Macquarie Investment Management Global Limited (ABN 90 086 159 060 AFSL 237843) (**Investment Manager**) as the investment manager of the Fund. Both entities form part of Macquarie Asset Management, which is Macquarie Group's asset management business.

Macquarie Asset Management is an integrated asset manager across public and private markets offering a diverse range of capabilities including real assets, real estate, credit, and equities and multi-asset.

2. How the Macquarie Hedged Index International Equities Fund works

The Fund is a unit trust registered under the Corporations Act 2001 (Cth) (**Corporations Act**) as a managed investment scheme. Each investor's investment amount is pooled and invested in the manner described in Section 5.

Investors acquire units in the Fund. A unit gives an investor a beneficial interest in the Fund's assets as a whole, but not an entitlement to, or interest in, any particular asset of the Fund.

The terms of the units, including an investor's rights and obligations, are set out in this PDS, the Information Booklet and the Fund's constitution (which we can provide to you on request). The constitution can be amended in certain circumstances. We can amend the constitution without your consent if we reasonably consider that the amendments will not adversely affect investors' rights. Otherwise, we must obtain the approval of the required number of unitholders at a meeting of unitholders (a resolution may bind you, regardless of how or whether you vote).

A reference in this PDS to '**Business Day**' means a day (other than a Saturday, Sunday, public holiday or bank holiday) on which banks are open for general banking business in Sydney.

Unit pricing

The price of a unit will generally be calculated each Business Day, and will be based on the value of the Fund's assets, less liabilities, divided by the number of units on issue (the **net asset value unit price**). The price of units will vary as the market value of the Fund's assets (including the swap) and liabilities rises or falls.

Application and redemption prices take into account our estimate of transaction costs (the **buy/sell spread**), and as a result, the application price will be higher than the net asset value unit price (by the amount of the buy spread), and the redemption price will be lower than the net asset value unit price (by the amount of the sell spread). See Section 6 for further details on the buy/sell spread.

How to invest and access your money

Making initial and additional investments in the Fund

Application cut-off time (Application Cut-off)[1]	Minimum initial investment amount[1]	Minimum additional investment amount[1]
2.00pm Sydney time on a Business Day	$100,000	$500

1 Or as we determine otherwise.

You can apply to make an initial investment in the Fund by completing the application form accompanying this PDS (**Application**). Unless we agree otherwise, where we receive an Application (including any required identification documentation) completed and duly authorised to our satisfaction before the Application Cut-off on a Business Day, with funds received on the same day, you will generally receive the application price for that Business Day. Unless we agree otherwise, if we receive an Application (including any required identification documentation) completed and duly authorised to our satisfaction on a Business Day but after the Application Cut-off, or on a non-Business Day, with funds received by the next Business Day, you will generally receive the application price for the next Business Day. Please note that we will not accept an Application until it has been completed and duly authorised to our satisfaction and we have received all required identification documentation.

For Electronic Funds Transfer (**EFT**)/bank transfer or Real Time Gross Settlement (**RTGS**), if funds are not received by us on the same Business Day that we receive the Application (if received before the Application Cut-off on a Business Day) or the next Business Day (if we received the Application after the Application Cut-off on a Business Day or a non-Business Day), then, unless we determine otherwise, the Application will not be accepted and you will need to notify us if you make the payment at a later date. Please refer to 'Paying your investment amount' in Section 2 of the Information Booklet for more information.

Applications made by direct debit may take up to four Business Days before the amount is invested and units are issued but may take longer in certain circumstances. If a direct debit fails, the Application will be rejected.

You can add to your investment at any time using BPAY, or by EFT/bank transfer or RTGS. Please refer to the Information Booklet for more information.

We may accept or reject an application (in whole or in part) at our discretion (without giving reasons). See Section 8 for more details on how to apply.

Redeeming your investment

Redemption cut-off time (Redemption Cut-off)[1]	Minimum balance amount[1,2]
12.00pm Sydney time on a Business Day	$50,000

1 Or as we determine otherwise.
2 If acceptance of a redemption request will result in a balance of less than the minimum balance amount, we may either reject the redemption request or treat the redemption request as relating to your entire holding.

You can generally request redemption of all or part of your investment in the Fund by writing to us or by completing a redemption request form which you can download at **macquarie.com/mam/redemption-form**. Alternatively, you can provide a signed request specifying the account name, the Fund name, the amount or number of units to be withdrawn and bank details. You can send your redemption request by email, mail or such other method agreed by us.

Where we receive a redemption request, completed and duly authorised to our satisfaction, before the Redemption Cut-off on a Business Day, investors will generally receive the redemption price calculated for that Business Day. Unless we agree otherwise, if we receive a redemption request, completed and duly authorised to our satisfaction, on a Business Day but after the Redemption Cut-off, or on a non-Business Day, we will generally treat the request as having been received before the Redemption Cut-off on the next Business

Day. Please note that we will not treat a request as having been received or accepted until it has been completed and duly authorised to our satisfaction. Before paying you the redemption amount, we may deduct from that amount any money you owe us in relation to your investment. Redemption proceeds will generally be paid within five Business Days after we accept the redemption request.

Potential delay of redemptions

In some circumstances, such as where there is a suspension of redemptions, investors may not be able to redeem their investment within the usual period or at all.

The Fund's constitution generally allows us 90 days following receipt of a redemption request to pay redemption proceeds. This may be extended in a number of circumstances including:

- if we have taken all reasonable steps to realise sufficient assets to satisfy a redemption request and are unable to do so due to one or more circumstances outside of our control, such as restricted or suspended trading in the market for an asset, or
- if, for a particular Business Day, we have received (or are deemed to have received) redemption requests for more than 10% of the units in the Fund, we may in our discretion satisfy redemption requests on a pro rata basis to the extent of 10% of the units in the Fund, and deem the remaining proportion of those redemption requests to be separate redemption requests for which the redemption date is to be such later date as is determined by us.

Distributions

The Fund may receive income and gains from the underlying investments. We will generally seek to distribute any net income on a quarterly basis and any net realised capital gains at least once a year. Distributions will be calculated based on the net income and net realised capital gains of the Fund. However, distributions may include capital paid out of the Fund. Unit prices may fall as a result of the allocation of the distributions to unitholders.

You may elect to have your distributions paid directly into a nominated Australian financial institution account or to have your distributions reinvested as additional units. If you do not make an election, your distributions will be reinvested.

⚠ You should read the important information about **how the Fund works** including additional information on how to invest and access your money, unit pricing methodology and potential delay of redemptions before making a decision. Go to Section 2 of the Information Booklet at **macquarie.com/mam/pds**. The material relating to how the Fund works may change between the time when you read this statement and the day when you acquire the product.

3. Benefits of investing in the Macquarie Hedged Index International Equities Fund

Significant features

- Provides exposure to the performance of the MSCI World ex-Australia ex-Tobacco Net Dividends Reinvested Index (hedged in AUD) (**Index**), by investing in the Macquarie True Index International Equities Fund (**Underlying Fund**) and entering into currency hedging contracts.

Significant benefits

- Low-cost exposure to a diverse portfolio of international equities through a hedged portfolio designed to remove foreign currency fluctuations. The Underlying Fund will not have any direct investment in companies involved in the production of tobacco that are not included in the Index but may have incidental indirect exposure to those securities through other investments such as index futures.
- Access to the expertise provided by Macquarie Asset Management.

⚠ You should read the important information about **additional features and benefits of the Fund** before making a decision. Go to Section 3 of the Information Booklet at **macquarie.com/mam/pds**. The material relating to additional features and benefits of the Fund may change between the time when you read this statement and the day when you acquire the product.

4. Risks of managed investment schemes

All investments carry risk. Different investments carry different levels of risk, depending on the investment strategy and the underlying investments. Generally, the higher the potential return of an investment, the greater the risk (including the potential for loss and unit price variability over the short term). When you make an investment, you are accepting the risks of that investment. It is important to understand these risks before deciding to invest.

The level of risk that you are willing to accept will depend on a range of factors including your financial objectives, risk tolerance, age, investment timeframe and where other parts of your wealth are invested. The value of your investment and the returns from your investment will vary over time. Future returns may differ from past returns. We do not guarantee the returns of the Fund and you may lose some or all of the money that you have invested. The significant risks of the Fund are described below but other risks may also adversely affect the Fund. You should seek your own professional advice on the appropriateness of this investment for your particular circumstances and financial objectives.

Investment risk: The Fund has exposure to share markets. The risk of an investment in the Fund is higher than an investment in a typical bank account or fixed income investment. Amounts distributed to unitholders may fluctuate, as may the Fund's unit price, by material amounts over short periods.

Index risk: The Fund aims to provide investors with exposure to the Underlying Fund's Index return hedged to Australian dollars through its investment in the Underlying Fund and its passive hedging program. Under True Indexing, the Index return provided by the Underlying Fund is independent of the performance of the investment manager of the Underlying Fund, and is subject to many risks including the general market risk of the securities making up the Underlying Fund's Index, specific risks from individual securities within the Underlying Fund's Index, all of which contribute to the volatility of the Underlying Fund's Index returns, and hence the returns paid to investors through the Underlying Fund.

Index provider risk: The index provider may cease to publish the Underlying Fund's index, increase the costs of using the index or make other changes to the index. In such situations, the responsible entity of the Underlying Fund may choose a replacement index for the Underlying Fund, cease providing True Indexing or terminate the Underlying Fund. Also, if the index provider fails to provide data to the responsible entity of the Underlying Fund to enable the responsible entity to calculate the unit price of the Underlying Fund and Swap payments or provides incorrect data, this may cause financial loss to the Underlying Fund or its investors (and therefore, indirectly cause loss to the Fund and its investors).

Market risk: Share markets can be volatile and have the potential to fall by large amounts over short periods of time. The performance of the Index and therefore the Fund is likely to have a broad correlation with share markets in general, and hence poor performance or losses in domestic and/or global share markets are likely to negatively impact the overall performance of the Index and therefore, the Fund.

International investments risk: The Index contains a range of international securities, issued by companies that have exposure to a range of international economies. Global and country specific macroeconomic factors, geopolitical events, and government actions may impact the value of the Index's constituents, and hence the value of the Fund.

Currency risk: The Fund has exposure to investments denominated in currencies other than Australian dollars. Currency risk is the risk that fluctuations in exchange rates impact the Australian dollar value of the foreign investments that the Fund has exposure to. The Fund generally seeks to reduce this risk by hedging its currency exposure; however, hedging may not completely remove currency risk, may reduce profitable opportunities, and increase costs.

Counterparty risk: The Underlying Fund has entered into a swap with Macquarie Financial Limited (**Swap Counterparty**) pursuant to which the Swap Counterparty agrees to pay the Underlying Fund the Underlying Fund's Index return in exchange for returns of the Underlying Fund's investment in an underlying portfolio of investments (**Swap**), resulting in pre-tax returns for investors that equal the returns provided by the Underlying Fund's Index (**True Indexing**). Payment of returns from the Underlying Fund may be delayed if the responsible entity of the Underlying Fund is required to enforce the rights of the Underlying Fund under the Swap. If the Swap Counterparty defaults on its obligations under the Swap, investors in the Underlying Fund (including the Fund) may not receive the Index return. A management fee could be charged in these circumstances. In this event, investors in the Underlying Fund and the Fund will be exposed to the performance of the underlying portfolio of investments. For further information, see 'Termination risk' and 'Risks when True Indexing no longer applies'.

Liquidity risk: Investments may be difficult or impossible to sell, either due to factors specific to that security, or to prevailing market conditions, resulting in a loss to the Fund or delays in redemption processing or even the suspension of redemptions.

Termination risk: True Indexing will cease where the Swap Counterparty terminates or defaults under the Swap or Macquarie terminates the Swap or the Underlying Fund. If True Indexing ceases, investors will no longer receive the Index return hedged to Australian dollars, and may also be required to pay higher management fees. Investors may not be able to find an equivalent investment in the market with which to replace their investment in the Fund.

Derivatives risk: Derivatives may be used to hedge existing exposures or to gain economic exposure. The use of derivatives may expose the Fund to risks including counterparty default, legal and documentation risk, and may have the effect of magnifying both gains and losses.

Underlying Fund risk: Through its investment in the Underlying Fund, the Fund is exposed to the risks of the Underlying Fund including investment performance, liquidity, management, default and counterparty risk.

Force majeure risk: The Investment Manager, or issuers or counterparties of investments that the Fund holds or has exposure to may be impacted by an event beyond the control of that party which affects that party's ability to perform its obligations and may cause losses to the Fund. This includes events such as fire, flood, earthquakes, pandemic, war, terrorism and labour strikes.

Regulatory and legal risk: Laws and regulatory policy affecting registered managed investment schemes may change in the future and have an adverse impact on the Fund.

Risks when True Indexing no longer applies: In circumstances when True Indexing no longer applies, the Fund, through its investment in the Underlying Fund, is no longer exposed to the Swap Counterparty through counterparty risk; however, investors become exposed to the risk of the underlying investments. The remainder of the above risks still apply (except for Index risk, Index provider risk and Termination risk). Additional risks also apply in these circumstances, including:

- **Concentration risk:** The risk that a single exposure causes the Underlying Fund, and hence the Fund, to underperform the market and/or its peers or a large redemption or application in the Underlying Fund or Fund significantly alters the exposure of the Fund to particular investments, sectors or asset classes due to security sales or purchases required.
- **Manager risk:** The risk that the performance of the Investment Manager, or the investment manager of the Underlying Fund, is unfavourable, either in an absolute sense, or relative to the Index.
- **Default risk:** The risk that a counterparty to the Fund, such as a broker, derivatives counterparty, or issuer, fails to meet a contractual obligation and causes financial loss to the underlying investments.

5. How we invest your money

You should consider the likely investment return, the risks involved and your investment timeframe when deciding whether to invest in the Fund.

Macquarie Hedged Index International Equities Fund

Fund objective	The Fund provides exposure to the performance of the MSCI World ex-Australia ex-Tobacco Net Dividends Reinvested Index (hedged in AUD) (**Index**). It aims to generate capital growth and income.
Description of the Fund	The Fund gains exposure to the performance of the Index by investing in the Macquarie True Index International Equities Fund (**Underlying Fund**) and entering into currency hedging contracts. Macquarie is the responsible entity of the Underlying Fund, which is also managed by the Investment Manager.[1]

Macquarie Hedged Index International Equities Fund

Description of the Fund *(continued)*	The Underlying Fund is designed to result in pre-tax returns for investors that equal the returns provided by the MSCI World ex-Australia ex-Tobacco Net Dividends Reinvested Index in Australian dollars (unhedged) (known as '**True Indexing**') and seeks to achieve this by investing in shares, derivatives (including options, futures, warrants and forwards) and cash, either directly or through underlying funds that are managed by members of the Macquarie Group (**Underlying Investments**) with the aim of providing exposure that closely resembles the exposure of the Index. The Underlying Fund also enters into a swap agreement with Macquarie Financial Limited (**Swap Counterparty**). If the Underlying Investments outperform the Index, the Swap Counterparty receives this outperformance. If the Underlying Investments underperform the Index, the Swap Counterparty compensates the Fund to the extent of the underperformance. These arrangements enable the Underlying Fund to provide True Index regardless of the performance of the Underlying Investments. The Investment Manager seeks to hedge the Fund's currency exposure back to Australian dollars. As such, the return of the Fund will reflect the Index return of the Underlying Fund and the impact of the passive currency hedge.
Asset allocation	International shares: 100%[2]
Index	MSCI World ex-Australia ex-Tobacco Net Dividends Reinvested Index (hedged in AUD)
Suggested minimum investment timeframe	Five years

Standard Risk Measure (SRM)	**1 Very low**	**2 Low**	**3 Low to medium**	**4 Medium**	**5 Medium to high**	**6 High**	**7 Very high**

We have calculated the SRM based on industry guidance. Please note that the SRM is not a complete assessment of all forms of investment risk. Go to Section 5 of the Information Booklet for more information. Refer to Section 4 for more information on the risks of an investment in the Fund.

Target investors	The Fund may be suitable for investors who are looking for an investment with the objective of the Fund listed above and are prepared to accept the risks of the Fund set out in Section 4. A Target Market Determination (**TMD**) for the Fund, which includes a description of the class of consumers for whom the Fund is likely to be consistent with their objectives, financial situation and needs, is available at **macquarie.com/mam/tmd**.
Changes to the Fund	We may make changes to the Fund from time to time or terminate the Fund. We will provide such notice as required by the Corporations Act or constitution of the Fund.
Fund performance	Performance history information can be obtained from our website at **macquarie.com/mam/au-performance** or by calling Client Service. Past performance is not a reliable indicator of future returns, which can differ materially.

1 Prior to 1 April 2020, the Fund held units in the Macquarie International Equities Fund.
2 The asset class refers to the asset class to which the Fund has economic exposure. A portion of the Underlying Investments may be allocated to cash for liquidity purposes.

⚠ You should read the important information about **how the Investment Manager invests your money** including additional information about True Indexing, labour standards, environmental, social and ethical considerations, switching and calculating the performance of the Fund before making a decision. Go to Section 5 of the Information Booklet at **macquarie.com/mam/pds**. The material relating to how the Investment Manager invests your money may change between the time when you read this statement and the day when you acquire the product.

6. Fees and other costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from $100,000 to $80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission** (**ASIC**) Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your investment, from the returns on your investment or from the assets of the managed investment scheme as a whole. Taxes are set out in another part of this PDS.

You should read all of the information about fees and other costs as it is important to understand their impact on your investment. You can use this information to compare costs between different simple managed investment schemes.

Fees and costs summary – Macquarie Hedged Index International Equities Fund

Type of fee or cost	Amount	How and when paid
Ongoing annual fees and costs		
Management fees and costs The fees and costs for managing your investment	0% pa comprising: **Management fee**[1] – 0% pa of the net asset value of the Fund	While True Indexing applies to the Underlying Fund, no management fee is charged. If True Indexing ceases to apply, a management fee (accrued daily, payable quarterly) would be deducted from the Fund's assets and reflected in the Fund's unit price. See 'Additional explanation of fees and costs' below for more information.
	Fund expenses and indirect costs [2,3] – 0% pa of the net asset value of the Fund	Generally deducted from the Fund's assets or an underlying fund's assets, reflected in the Fund's unit price and paid when incurred.
Performance fees Amounts deducted from your investment in relation to the performance of the product	**Fund** – Not applicable **Underlying funds** – Not applicable	Not applicable
Transaction costs The costs incurred by the Fund when buying or selling assets[3]	0% pa of the net asset value of the Fund	Deducted from the Fund's assets, reflected in the Fund's unit price and are generally paid when incurred.
Member activity related fees and costs (fees for services or when your money moves in or out of the Fund)		
Establishment fee The fee to open your investment	Not applicable	Not applicable
Contribution fee The fee on each amount contributed to your investment	Not applicable	Not applicable
Buy/Sell spread An amount deducted from your investment representing costs incurred in transactions by the Fund	As at the date of preparation of this PDS, is: • 0.13% added to the net asset value unit price on application, and • 0.12% subtracted from the net asset value unit price on redemption, but we may vary this from time to time. Latest buy/sell spreads are posted at **macquarie.com/mam/daily-spreads**.	Buy/Sell spreads may apply to the Fund. The buy/sell spread is reflected in the application price and redemption price respectively and is not separately charged to the investor. Refer to 'Buy/Sell spread' in Section 6 of the Information Booklet for more information.
Withdrawal fee The fee on each amount you take out of your investment	Not applicable	Not applicable
Exit fee The fee to close your investment	Not applicable	Not applicable
Switching fee The fee for changing investment options	Not applicable	Not applicable

Unless stated otherwise, all fees are shown inclusive of GST and net of any input tax credits (**ITCs**) and/or reduced input tax credits (**RITCs**) and are shown without any other adjustment in relation to any tax deduction available to us. The proportion of GST paid on the fees that can be recovered by the Fund as RITCs or otherwise varies. The fees paid by the Fund will equal the rates disclosed in this section (inclusive of GST, net of ITCs and/or RITCs) regardless of the rate of GST recovery in any period.

1 May be negotiated if you are a wholesale client under the Corporations Act and subject to compliance with applicable regulatory requirements. Refer to 'Differential fees' below for more information.

2 May include fund expenses and/or indirect costs of underlying funds. We do not currently seek reimbursement from the Fund for administrative expenses of the Fund. Abnormal expenses will generally be paid by the Fund. Refer to Section 6 of the Information Booklet for more information.

3 Based on historical fees and costs. Past fees and costs may not be a reliable indicator of future fees and costs. Actual fees and costs may vary significantly each year. See 'Transaction costs' below and Section 6 of the Information Booklet for more information.

Example of annual fees and costs for the Fund

This table gives an example of how the ongoing annual fees and costs in the Fund can affect your investment over a 1-year period. You should use this table to compare the Fund with other products offered by managed investment schemes.

Example		Balance of $150,000 with a contribution of $5,000 during year
Contribution fees	Not applicable	For every additional $5,000 you put in, you will be charged **$0**.
PLUS Management fees and costs	0% pa[1]	**And**, for every $150,000 you have in the Fund, you will be charged or have deducted from your investment **$0** each year.
PLUS Performance fees	Not applicable	**And**, you will be charged or have deducted from your investment **$0** in performance fees each year.
PLUS Transaction costs[2]	0% pa	**And**, you will be charged or have deducted from your investment **$0** in transaction costs.
EQUALS Cost of Fund		If you had an investment of $150,000 at the beginning of the year and you put in an additional $5,000 during that year, you would be charged fees and costs of **$0**. **What it costs you will depend on the fees you may be able to negotiate**.

1 Calculated using the fees and past costs as a percentage of the average net asset value of the Fund for the previous financial year. It is not a forecast of the fees and costs, which may be higher or lower in the future.

2 Calculated using the costs as a percentage of the average net asset value of the Fund for the previous financial year. It is not a forecast of the costs, which may be higher or lower in the future.

Additional explanation of fees and costs

Management fees and costs applicable where True Indexing no longer applies to the Underlying Fund

If True Indexing ceases to apply to the Underlying Fund, a management fee of 0.300% pa of the net asset value (inclusive of the net impact of GST) would be charged and management costs may also be recovered from the Underlying Fund or Fund.

Transaction costs

Transaction costs incurred by the Fund (such as brokerage, clearing costs, hedging costs, settlement costs, transaction fees, taxes and stamp duty) will generally be incurred as part of the management of the Fund. These costs are an additional cost to you and are reflected in the Fund's unit price. They are not amounts paid to us or the Investment Manager.

While True Indexing applies to the Underlying Fund, transaction costs incurred by the Underlying Fund will not be borne by investors. These costs will reduce the return payable to the Swap Counterparty under the Swap.

If True Indexing ceases to apply to the Underlying Fund, then, in addition to the transaction costs of the Fund, the transaction costs of the Underlying Fund will be borne by investors.

The buy/sell spread charged to investors offsets some or all of the transaction costs borne by the Fund, which may include costs

incurred as part of the ordinary trading activities of the Fund rather than the particular application or redemption. We may vary the buy/sell spread from time to time, including by material amounts. We will not provide prior notice of a change to the buy/sell spread. Please check **macquarie.com/mam/daily-spreads** for the latest buy/sell spread prior to applying for, or redeeming, units in the Fund.

The gross transaction costs for the Fund for the previous financial year were 0.099% of the net asset value of the Fund. The transaction costs shown in the 'Fees and costs summary' table above are net of any buy/sell spread that was charged by the Fund for that period. When the transaction costs exceed the amount of the buy/sell spread charged, the transaction costs are not fully recovered and so are an additional cost to you.

As required by fees and costs disclosure obligations, the transaction costs do not include market impact costs, implicit transaction costs, borrowing costs or property operating costs. However, these costs may be borne by the Fund as part of its trading activities, and market impact costs and other implicit transaction costs are taken into account in calculating the buy/sell spread.

The transaction costs disclosed (including the buy/sell spread for the Fund) are based on information available as at the date of the preparation of this PDS and assumptions that we consider reasonable. The transaction cost amounts are not forecasts of the total transaction costs in the future. The amount of transaction costs, including buy/sell spreads, may be higher or lower in the future. Refer to the Information Booklet for further details.

Differential fees

We, or the Investment Manager, may negotiate with wholesale clients (as defined in the Corporations Act) differential fees, payments or rebates as permitted by the Corporations Act and ASIC relief. There is no set manner or method of negotiating fees, payments or rebates. Refer to 'Differential fees' in Section 6 of the Information Booklet and contact Client Service for more information. Client Service contact details are stated on the front page of the PDS.

Tax

Refer to Section 7 for information about tax.

Information about fee changes

We may change the amount of fees without your consent (up to any maximum that is allowed under the Fund's constitution). If we increase the fees, we will provide you with at least 30 days written advance notice. We cannot charge more than the constitution of the Fund allows, unless we obtain investors' approval to do so. Under the constitution, the maximum fees (exclusive of the net effect of GST) are:

- a maximum contribution fee of 5% of the investment amount
- a maximum redemption fee of 5% of the redemption amount
- a maximum management fee of 5% pa of the value of the assets of the Fund, and
- a maximum switching fee of 5% of the value of the investment switched.

⚠ **Additional fees may be paid by you to your financial adviser. You should refer to the statement of advice provided by your adviser for details of those fees.**

⚠ You should read the important information about **fees and costs** including additional services and charges before making a decision. Go to Section 6 of the Information Booklet at **macquarie.com/mam/pds**. The material relating to fees and costs may change between the time when you read this statement and the day when you acquire the product.

7. How managed investment schemes are taxed

Investing in a registered managed investment scheme is likely to have tax consequences. The information contained in the following summary is intended to be of a general nature only. It does not constitute tax advice and should not be relied on as such. You are strongly advised to seek independent professional advice on the tax consequences of an investment in the Fund, based on your particular circumstances, before making an investment decision.

The Fund has elected into the Attribution Managed Investment Trust (**AMIT**) regime. Under the AMIT regime, investors will be attributed (and assessed for tax) on income (including any capital gains) of the Fund on a fair and reasonable basis for each relevant financial year.

Where the Fund is not an AMIT, investors in the Fund will be presently entitled to the entire amount of the income of the Fund for each relevant financial year and will be assessed for tax on their share of the net income of the Fund (including any net capital gains) for a financial year.

The Fund should not be liable for Australian income tax under present income tax legislation.

Capital gains or income arising from a significant redemption may be attributed or distributed to the redeeming investor on a fair and reasonable basis. A significant redemption is generally one where an investor's redemptions for the financial year are 5% or more of the Fund's net asset value. However, where permitted by the Fund's constitution, this may be less than 5% of the Fund's net asset value where we believe it is fair and reasonable. Please contact us if you require further information.

⚠ You should read the important information about the **additional taxation matters** relating to managed investment schemes before making a decision. Go to Section 7 of the Information Booklet at **macquarie.com/mam/pds**. The material relating to the additional taxation matters relating to managed investment schemes may change between the time when you read this statement and the day when you acquire the product.

8. How to apply

You should read this PDS, together with the information contained in the Information Booklet, available at **macquarie.com/mam/pds**.

Direct investors should complete the application form that accompanies this PDS. You can send the completed application form and required identification documentation to us by mail or email. If you email your identification documentation to us, we may request certified copies of the originals to follow in the mail for our records and your account may not be opened until they have been received.

If you are an indirect investor investing through an investor directed portfolio service (**IDPS**), please contact your financial adviser or IDPS operator for details of how to invest in the Fund.

Cooling-off period

If you are a 'retail client' under the Corporations Act, you can terminate your investment in the Fund during the period of 14 days starting on the earlier of the time when you receive confirmation of issue of units in the Fund to you or the end of the fifth Business Day after the units are issued to you. Your refund will be processed as a redemption and the redemption value will be reduced or increased for market movements since your investment. We will also deduct any tax or duty that is paid or payable by the Fund, any reasonable administration or transaction costs incurred as well as the sell spread. As a result, the amount returned to you may be less than your original investment. To exercise your cooling-off rights, please write to Client Service.

Enquiries and complaints

You may contact your financial adviser or Client Service if you have any enquiries or complaints. If you have a complaint, please contact us and we will do our best to resolve any matter quickly and fairly. Written complaints can be sent to us at:

The Complaints Officer
Macquarie Investment Management Australia Limited
PO Box R1723
